Blood On The Earth

Richard & Jo Heywood

Key of G
80 BPM

Verse:

```
                Em Em  C C              G G
We will remember    , we won't forget
D/F# D/F#  Em Em C C                  G G
All that you gave us, the life that you shed
     D/F# D/F#    Em Em    C C                  G G
For King and for country  , for strangers and friends
      D/F# D/F#    Em Em  C C                  G G
You gave us to  morrow    , bought with your end
```

Pre-Chorus:

```
D D         Em Em                    C C
Oh what, can we do say to say thank you
      D D         Em Em               C C
And oh what, can we do to say thank you
```

Chorus:

```
                G G              C C                          D D
We'll live in peace, so the poppies can grow in the fields
                          Em Em  C C                           D D
We'll live with each other,    standing as sisters and brothers
           F F                    C C
And the blood on the earth, poured from your heart
      G G                     D D
Will never ever, be forgotten
      F F                     C C
The blood on the earth, poured from your heart
               D D
We will remember you
```
